First, there are about 100 items in this software. By scanning these items, it is said the software can do backups. But the program can only do backups. You cannot restore from backups. The user manual is very poor and very difficult to understand. If you have this software, you'll be glad that this software is totally useless! When I'm restoring a database, you know the results is from the original server, not from a backup. But the program can't restore from backup, so it can't restore. It's not hard to understand. How can you restore a database that can't be restored? It should be the opposite way. This software will be really worthless to you! I am very disappointed! The results of what the software can do are totally different from what the program itself can do. The program is quite bad, and the help file is not in English, so you

Chinese President Xi Jinping said Wednesday that a joint U.S.-China trade war could not be won and that each country must make adjustments to ensure a win-win outcome. In a rare address at the United Nations General Assembly, Xi said trade war is "unacceptable," adding that "adjustments and compromises" must be made. He said both sides must understand that there is a need for coordination, respect, and constructive dialogue. "Both sides should earnestly respect each other's core interests and major concerns, be clear-sighted and reasonable, and seek cooperation, not confrontation," Xi said. He added that China has no choice but to "firmly defend" its interests. Trump said last week he's holding out for $1.2 trillion in Chinese product purchases — up to the limit of 10% of China's trade surplus with the U.S. He then imposed tariffs on $200 billion in Chinese products. China, meanwhile, has imposed tariffs on $60 billion worth of U.S. goods — including products such as soybeans and autos. The U.S. and China have been locked in a trade war for nearly a year and a half. Trump has also imposed tariffs on $250 billion of Chinese goods. -CNBC's Michael Bloom contributed to this report.Over the past several years, we have investigated interactions between tumour cells and both their host stromal cells and their host immune system. In particular, we have shown that tumour cells can induce changes in their host stromal cells that lead to
