Read the Bible in Pink and now from Bible Gateway you can read from and search the entire Bible - Anywhere. Free bible software for PC, Bible Gateway is a one stop shop for reading the Bible in a multitude of formats and, with a few customizations, can be customized to your own preference. Passion
Passion requires a free CC

license to read in the browser and can be stored on your computer or in a safe place. The software quickly and easily imports formatted text files from Word and other word processing programs. Main Features: Bible on Every Day Anywhere No special equipment required Every Word has a Meaning Any Text Bible Gateway offers a myriad of options for formatting the Bible. The

most common are the English Standard Version and the New International Version. Both offer old and new grammar, simplified, and more readable versions. In addition to formatting, Bible Gateway offers the ability to conduct a hypertext search, highlight words and phrases, and easily display additional information on a specific verse or passage. Passion is an essential part

of our daily lives. Too often we find ourselves enslaved to a set of beliefs that are not even ours. We can even be enslaved by spiritual forebodings. We find ourselves chained to the very things that we use to validate our beliefs. We can purchase our beliefs with our money and our time. If we wish to worship any deity we can research its beliefs and collect the attributes we think it

possesses. But which belief will deliver us from the bondage of our beliefs? Does the Almighty fill our hearts with compassion? Does He give us strength to be noble? Does He show us ways that we can each best help one another? Are these things that our hearts yearn for? Free Christian Bible Software A Christian group has spent countless hours recreating scripture into a single easy

to read format. Main features of this free software include easy to read language, along with linking to concepts and passages from other places in the Bible. What Christians must understand is that "the Word of God is living and active. It is sharper than any two-edged sword, piercing even to the dividing asunder of soul and spirit, and of joints and marrow,

and is a discerner of the thoughts and intents of the heart" (Hebrews 4:12). By having access to this Bible software, we too can be "partakers of

10/25/2009 1 Great

screensaver and very configurable. NFS Blue Globus 3.2 adds useful enhancements. Thanks to the developers of this screensaver. Vyacheslav V. - 10/25/2009 0 Nice screensaver. Nice global globe with blue coloring. Nice configuration options. Only the second mention of the word "Global" and it has to refer to the color blue. Julie McNamara - 08/09/2009 0 It's a nice

views of our Earth, and the transition effect is good. I wish there was a way to change the time interval. For example, to go all over the day in 1 hour?. This version looks like it has the ability for configuration, but from where do you change the time interval?

Mats H. Sahlgren -
08/03/2009 0 it's fast and cool. Lovely view of Earth from space but there are some bugs. There is an

option to change the display resolution but it doesn't seem to affect the size of the globe. It's very good just with a few bugs.

Samir - 08/01/2009 5

Really nice screensaver, nice colors and transition!

Matt - 08/01/2009 1 I was a bit disappointed by the beta feature of displaying orbits. The orbits never change with the rotation of the earth, it looks like they are fixed. Walking F. -

07/31/2009 0 The 3.2 version looks better than the 3.1 version. Jovi -

07/31/2009 0 It is the best desktop planetarium screen saver. However, "Save" button is not working. Kemal Avdic -

07/24/2009 5 I can see the cathedrals of Europe from space. The views are beautiful! Jasper -
