AutoCAD is used for 2D and 3D drafting, 3D modeling, rendering, and mechanical design. It is mainly designed for use with engineering drawings, structural analysis, civil engineering, architecture, and architectural design. AutoCAD is able to work with many other types of drawings as well, including architectural elevations, blueprints, text, images, plans, orthophotos, scanned images, laser scans, point clouds, and photographs. — AutodeskThe NHL's upcoming Winter Classic on New Year's Day in Michigan features a host of players who've made names for themselves in this league - at least in the eyes of Washington Capitals fans. Despite his team's historic run to the Stanley Cup finals, Capitals fans aren't exactly huge fans of Alex Ovechkin. This can be mainly attributed to the Russian superstar's constant on-ice tirades during the playoffs. But even the likes of Sidney Crosby, Steven Stamkos and Joe Thornton receive a warmer reception from the Capitals' fanbase. So who will the Caps take to the face-off circle on Jan. 1? The Detroit Red Wings' Justin Abdelkader, Chicago Blackhawks' Marian Hossa, Winnipeg Jets' Blake Wheeler, or San Jose Sharks' Logan Couture? Let us know in the comments section who you think will take on the Capitals on New Year's Day. --- Add your opinion to the conversation in the comments below.Sign up for news from Liberal America, please Email Address Phone The Liberal Immigration Policy™ at Liberal America "We have more immigrants than we have available work visas." The statement is staggering: more immigrants than work visas. If you are like me, you probably thought that the only way to get a work visa was through your employer. But in reality, if you aren't familiar with the employment immigration process, then you may be living in the dark ages of the immigration policy debate. Like many immigration policy debates, the outcome of this one has been anything but free market. Instead, the debate has been one of big government officials versus big business. In fact, with the way things are going, we may soon have a situation where business entities will need to have a plan to import immigrants if they plan on staying in business. In my personal opinion, the immigration policy debate has become about far more than the mere question of whether we should expand or curtail the

It's not easy to tell a 20-something if they're a vampire, a werewolf, or just, y'know, a regular person. Barack Obama never failed an AP test. He has never been in a fistfight. He once sang in a rock band. And now, he's probably the first president to do Facebook. The President just posted a link to a photo of himself walking the stage on his Facebook page, and wrote: "If you're a vampire, can you fly?" and "If you're a werewolf, can you change?" The post got more than 24,000 likes, so clearly, he has a strong following, and a potential target audience. As previously reported, President Obama is a very active user of Twitter, and the President also has a Facebook page, where he often writes more personal blog posts. The Internet has done a few things to this photo, and not always for

the better. The original photo, taken by a security guard af5dca3d97
